MEMO TO THE FILE

CASE: STATE VS Billy Lee Oatney C962556CR
ATTORNEY: John P. Manning
DATE: 6 February 1998
RE: Schools

I have received responses from Vancouver School District, Woodburn School District, Canby School District, and Sweet Home School District. The latter two are searching their records again, as I have found confirmation of attendance in subsequent searches. They are cooperating. Still lacking is information from California's Greenville Schools, and Vancouver's Evergreen. It looks as though Molalla may have something, as well. I will follow up on that one.

Thus far, I am finding some favorable things to be used in the penalty phase, if we have the misfortune of getting that far. I've turned up a potential witness who will not be in until Monday morning. His name is Peter McCallum. I will follow through with him.

From the records, I have found someone I'm interested in from Greenville, CA. I'll try to do those interviews by phone, if I can even trace the witness.

Billy was no rocket scientist. Neither was he an over-achiever. I would like all work and school records shipped to Dr. Cunningham, as soon as I get the last ones in. I think he can build a pretty good profile from them.
